

Here's Your "Must Read"
Special Report About Refinancing Your Mortgage

"How Refinancing Our Mortgage Was The "Biggest" Mistake Of Our Lives"

This Free Report Could Literally Save Your Family From Financial Disaster!

I can't believe it. I still simply can't believe it. How could this have happened to us!

Everything was going along so well. The kids were doing great in school, Dan and I were finally getting to a point where we could start to afford some of the finer things in life.

We weren't well off by any means but we could start to buy those *extras* that made life a little bit more enjoyable.

Now all that has changed, now I am having problems paying even the simple bills and I am not sure now if we can even keep the house.

And one of the main reasons is because we refinanced our mortgage. If I have learned anything through this experience it is that I want to make sure that no one else makes the same mistake we made.

Our family will be paying for "it" for the rest of our lives.

Simply put, Refinancing Our Home Was One Of The Biggest Mistakes We Ever Made.

I will never forget that phone call.....

Please see page 2

When Bob, Dan's floor manager, called and told me Dan had collapsed on the production floor.

He was currently being rushed to Geisinger Medical Center and Bob told me I should get there *RIGHT AWAY*.

The hospital was only minutes away, it seemed like a eternity by the time I got there.

How could this be happening? Dan was only thirty-eight years old! What could possibly be wrong?

By the time I got there it was already too late.

The doctors said they had done everything that they could but Dan had a massive heart attack.

Several days went by in haze, the funeral and the "I am so sorry" from friends and relatives.

Only then did it really start to hit me. How am I going to pay all these bills? How much life insurance did Dan have?

I was sure the mortgage was taken care of, we had purchased a mortgage life policy years ago.

***Only Then Did I Come To Find Out How Refinancing
The Mortgage Was The Biggest Mistake Of Our Lives!***

I was simply in disbelief when our banker told me, "since you refinanced your mortgage you did not also refinance your life insurance policy."

The old policy stopped the minute we refinanced the new mortgage.

Since we did not take out a NEW policy on the NEW mortgage we had NOTHING.

Sure Dan had a little bit of life insurance from work, that would pay for the funeral and maybe some of the credit card bills.

But there is no way I can raise the kids and pay the mortgage on my paycheck! What about college expenses? How did this happen?

Dan said he would always take care of me. How did we ever get into this type of a mess and what am I ever going to do now?
